Claims 1-5 stand rejected as set forth in the office action dated 2/8/05.

Applicant's arguments filed 4/29/05 have been fully considered but they are not persuasive. With respect to the rejections of claims 1-4, applicant's arguments with respect to the use of his disclosed invention and not to any positively claimed elements not taught by Law et al., Dudley or Arreola are not persuasive, as the claimed article should recite structurally over the prior art and not the use of the disclosed invention. With respect to applicant's contention that only one vertical member is claimed. It is noted that "at least one" does not mean "one"; furthermore, applicant's drawings show more than one vertical member. With respect to applicant's arguments to a rejection of Dudley being combined with the teaching of either Law or Arreola, it is noted that no such rejection was made. With respect to the rejection of Law in view of the teaching of Arreola, applicant's arguments are not persuasive, as they are not directed to the teaching for which Arreola was used. With respect to claim 5, Law in fig.1 shows his ladder being attached into a truck engine compartment.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
